LUCIDITY

Our Vision, your Safety

OEM & Aftermarket Lighting 2023/2024

www.lucidityaustralia.com.au

Lucidity Australia is Australia's leading automotive wiring and Lighting manufacturer based in Melbourne Victoria. We specialise in tailored engineered solutions for original equipment manufacturers and have service the Australian aftermarket with our world class lighting products for more than two decades.

Our focus is delivering the highest quality products and service to the Australian market, that is why our wiring harness solutions are manufactured right here in Melbourne.

Our complete range comprises of a variety of innovative LED lighting, reflex reflectors, mounting hardware and electrical accessories. As an ISO/IATF16949, ISO 14001, OHSAS 18001 and ISO 50001 certified manufacturer, each and every product meets the highest quality standard. We ensure to meet customer specific requirements of the industry with strict testing by TUV Nord certified in house test laboratories prior to market release.

At Lucidity, innovation means not only new ideas but being able to offer a more lucrative commercial outcome for our customers. Being a customer of Lucidity Australia, you will experience the opportunity to work with well trained, dedicated customer oriented professionals and the highest levels of service all of the time.

We build quality into all aspects of our business and our ultimate goal is to achieve and maintain absolute customer satisfaction.

PROVEN QUALITY FROM LUCIDITY

The operating conditions place the highest demands. All Lucidity LED products are therefore tested during development and properly inspected at production line to meet the highest demands in terms of quality so that they can achieve maximum performance.

IPX9K WATER TESTER

Powerful high temperature water jets
IPX9K is the highest level of water ingress protection rating which mainly indicates the durability of an object and complies with ISO 20653.

IPX9K TESTER

Lucidity LED products are tested at a water volume 14-16 liters per minute, water pressure of 8000-10000 KPA/ 80-100 Bar at distance of 10-lScm and water temperature of 80 °C.

WATER SPRAY TEST

Lucidity LED products are tested under real environmental conditions in the world class IP rain tester.
It is equipped with devices for rains, spray mist and powerful water jets with increased pressure.

Quality Assurance

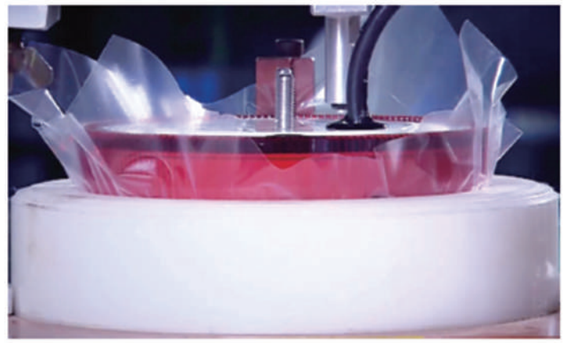

IMMERSION AND PRESSURE LEAK TEST

In this test, the LED products are submerged in water for 30 minutes in an immersion tank at a depth of 1 meter.

DUST TEST

The dust protection test measures the degree to which a LED product is protected against the ingress of solid foreign particles, including dust.

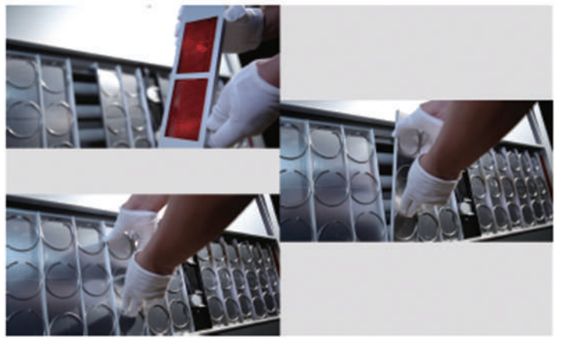

SALT SPRAY TEST

The salt spray test is a standardized corrosion test method, it is used to check corrosion resistance of materials and its coatings.

100% INSPECTION

All Lucidity lighting products GloTrac & work lamps are 100% air-tight inspected at production line to ensure every single unit is completely waterproof.

ULTRAVIOLET TESTER

t tests plastic plates (not completed lights) with UVA 340 lamp according to ISO 4892-3.
A single test lasts 25 days (600 hours), and the machine simulates the environment from early morning to noon (the time with the highest UV in a day) and then to night.

DIGITAL DIAL INDICATOR FIXTURE

It measures the tightness between the light and the socket on the vehicles.
The lower the measured outcome is the better the lights are.

LED Rear Lamps

- LED Rear Lamps are made of Heavy Duty Polycarbonate (PC) providing extra durability to withstand the tough conditions that Australia Presents
- Made with Durable SMD LEDs that withstand vibration and other external impacts
- Long life span LEDs for Zero Maintenance
- These lamps are available in a standard LED Format, GloTrac Technology and the brand new Premium Black Series range
- 5 Year Warranty

COB LED TECHNOLOGY

92301 Rechargeable Cordless LED Utility Lamp

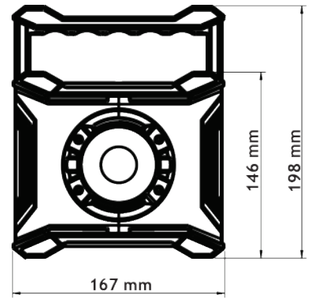

Advantages

- IP65 Rated
- Lithium-Ion Battery
- Power Bank Function
- USB & USB Type C
- 6 Hours Run Time Low
- 2 Hours Run Time High
- Charge Time: 6 Hours
- Chip on Board (COB) LED Technology
- Ideal for Camping, Caravan, Workshops & DIY
- 2 Year Warranty

56017 Series
Load Resistors

Instruction

Indicator Circuit:

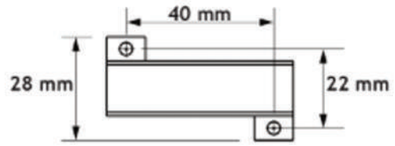

If fitting to the Indicator circuit, fit one lead of the resistor to the positive supply side and the other lead of the resistor to the negative supply or ground input wire.

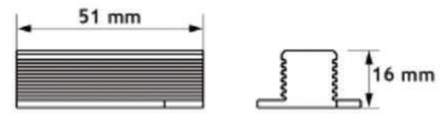

Brake Circuit:

If fitting to the Brake circuit, fit one lead of the resistor to the positive supply side and the other lead of the resistor to the negative supply or ground input wire.

Warning

A Load Resistor must be mounted on metal surface in order to dissipate the heat it generates,
DO NOT ALLOW Wiring or other materials to touch the surface of the resistor when in operation.
