Part No	Description
196408076421	12 Volt EBS Pre-Wired Socket
196408076422	24 Volt EBS Pre-Wired Socket

Features:

- 12/24 Volt EBS pre-wired socket
- Simplified Maintenance
- Effortless Replacement
- Optimal Workshop Practice
- Swift Connectivity
- Cost-Effective Strategy
- Long-Term Savings
- Stress-Free Socket Replacement

Information:

- **Innovative Addition:** We proudly present the latest addition to our product range – the 12 & 24 Volt EBS pre-wired sockets.
- **Simplified Maintenance:** Say goodbye to the hassle of maintenance on electrical sockets, whether it's for lighting or EBS. Our new pre-wired sockets make the maintenance process effortless.
- **Effortless Replacement:** When combined with our cable kits or splitter boxes, socket replacement is transformed from a time-consuming task into a matter of moments.
- **Swift Connectivity:** The prewired socket features a bayonet connector on the short tail that seamlessly links to our cable or junction box systems.
- **Stress-Free Socket Replacement:** Eliminate the stress from socket replacements. Easily replace sockets quickly and accurately by anyone.
- **Enhanced Repairs:** Repair worn parts in the workshop environment, free from the pressures of urgent repairs on the road.
- **Cost-Effective Strategy:** Keep a selection of these sockets in your workshop and rotate them through repair cycles. This simple and economical practice can prevent costly roadside repairs.
- **Optimal Workshop Practice:** Incorporating these sockets into your maintenance routine ensures efficient operations and reduces potential disruptions.
- **Long-Term Savings:** Proactive use of our sockets can save you from expensive repairs and downtime, providing a cost-effective advantage.

Note: Choose Lucidity Australia EBS Pre-Wired Sockets for streamlined maintenance, effortless replacements, and cost-effective operations. Upgrade your socket experience today!
