Lucidity Australia

Lucidity Australia is a leading lighting and wiring manufacturer based in Melbourne, Victoria. We specialize in tailored engineering solutions for original equipment manufacturers and have serviced the Australian transport industry with our world-class products for more than two decades.

Our focus is on delivering the highest quality products and service to the Australian market. We have a passion for Australian Manufacturing that is why our wiring and harness solutions are designed & manufactured right here in Melbourne, Victoria.

Our complete product range comprises a variety of innovative LED Lights, Incandescent Lights, Reflex Reflectors, Mounting Parts and Electrical Accessories. As an ISO/IATF16949, ISO 14001, OHSAS 18001 and ISO 50001 certified manufacturer, each new product meets the highest quality standard and customer specific requirements of the industry, strictly tested by TUV Nord certified in house test laboratory prior to market release.

We build quality into all aspects of our business and our ultimate goal is to achieve and maintain absolute customer satisfaction to ensure truck drivers, fleet owners and manufacturers keep trucks off the service floor and on the road longer by dramatically cutting installation and replacement times, reducing replacement costs, improving safety, quality and efficiency. Innovation is the wellspring of our consecutive growth.

At Lucidity, innovations means not only new ideas but also putting these ideas into practice. Being a customer of Lucidity Australia, you will experience the opportunity to work with the well-trained, dedicated customer-oriented professionals and the highest level of service all the time.

Rigid Trailer Wiring Module Combinations

At Lucidity, innovation meets reliability in our industry-leading rigid truck wiring module combinations. Designed for seamless integration across a wide range of truck builds, our modular systems offer unmatched flexibility—whether for standard setups or custom configurations. Engineered for durability, safety, and long-term performance, each module simplifies installation, reduces downtime, and ensures compliance with the highest industry standards. The smart, adaptable design allows you to pick and choose components that suit any size or layout, delivering a streamlined solution without compromise. Backed by robust construction and a commitment to excellence, Lucidity’s wiring modules set a new benchmark in efficiency, safety, and reliability for the transport industry. Explore sample configurations—the possibilities are endless.

Lighting Solutions Built for Rigid Trucks

Reliable, Durable, Lucidity

At Lucidity Australia, we understand the unique demands of rigid trucks operating across Australia’s toughest conditions.

Whether it’s navigating urban streets or hauling across regional routes, rigid trucks require lighting solutions that deliver uncompromising performance, visibility, and safety day in and day out.

This catalogue showcases our range of LED lighting and wiring solutions specifically engineered for rigid truck applications. From stop/tail/indicator lamps and marker lamps to custom cable systems and license plate lights, every product is designed to meet industry standards and exceed expectations for durability and ease of installation.

With a reputation built on quality, innovation, and local support, Lucidity is proud to partner with rigid truck manufacturers, fleet operators, and body builders across the country.

Trailer Model	Module Combination	Description
